Assignment of Invention

Whereas, Wayne Allen Wade ("Assignor"), has made an invention relating to Thermoplastic Molded Tank, said invention being disclosed and claimed in United States patent application 10/600,263 filed June 20, 2003, publication 20040011786 published January 22, 2004;

Whereas Assignor, in consideration of employment and other consideration from Rochester Rotational Molding, Inc. of Rochester, IN (hereinafter "Assignee"), the receipt and sufficiency of which are hereby acknowledged, has agreed, among other things, to assign to assignee, its successors and assigns, all rights to the inventions claimed or disclosed in U.S. patent application 10/600,263;

Therefore, Assignor hereby sells, assigns, and transfers unto Assignee the entire right, title, and interest in and to said invention and in and to all resulting patents, wherever they may be granted, as well as continuations, reissues, and foreign counterparts of said patents. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue said patents to Assignee, of the entire right, title, and interest in and to the same, to the full end of the term for which said patents may be granted, as fully and entirely as the same would have been held by Assignor had this assignment not been made.

Assignor covenants with Assignee that his interest in the rights and property herein conveyed is free and clear of any encumbrance and that he has full right to convey the same as herein expressed. Assignor agrees, at the request and expense of Assignee, to make, execute, and deliver to Assignee, or other party prosecuting patent applications on this invention, any and all papers, documents, affidavits, applications, statements or other instruments relating to said invention, take all rightful oaths and do all acts as may reasonably be required of him in or incident to the prosecution of any or all applications on said invention or in the adjustment or settlement of any interferences or other actions or proceedings that said applications or patents thereon may encounter or in which they may become involved.

Assignment of Invention and Patent Rights

Whereas, Rochester Rotational Molding, Inc., an Indiana corporation ("Assignor") has been assigned all rights to the inventions claimed or disclosed in the following patents and patent applications:

United States patent 6,649,060, "Septic Tank Having A Support System And Mold For Manufacturing Same";

United States patent application 09/839,004, "Apparatus and Method for Manufacturing a Tank";

United States patent application 10/600,263, "Thermoplastic Molded Tank".

Whereas Assignor, in consideration of an agreement with Norwesco, Inc., a Minnesota corporation ("Assignee"), has agreed, among other things, to assign to Assignee, its successors and assigns, all rights to the inventions claimed or disclosed in the above patents and patent applications.

Therefore, Assignor hereby sells, assigns, and transfers unto Assignee the entire right, title, and interest in and to said inventions and in and to all resulting patents, wherever they may be granted, as well as continuations, continuations-in-part, reissues, extensions, and foreign counterparts of said patents.

Assignor covenants with Assignee that Assignor's interest in the rights and property herein conveyed is free and clear of any encumbrances and that Assignor has full right to convey the same as herein expressed.

Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue said inventions claimed or disclosed in the above patents and patent applications to Assignee, of the entire right, title, and interest in and to the same, to the full end of the term for which said inventions claimed or disclosed in the above patents and patent applications may be granted, as fully and entirely as the same would have been held by Assignor had this assignment not been made.

Assignor agrees, at the request and expense of Assignee, to make, execute, and deliver to Assignee, any and all papers, documents, affidavits, applications, statements or other instruments relating to said inventions, and take all rightful oaths and do all acts as may reasonably be required of Assignor in or incident to the prosecution of the above patent applications as well as continuations, continuations-in-part, reissues, extensions, and foreign counterparts on said inventions claimed or disclosed in the above patents and patent applications or in the adjustment or settlement of any interferences or other actions or proceedings that said inventions may encounter or in which they may become involved.

IN WITNESS WHEREOF, the Assignor has caused this Assignment to be executed and delivered on the date set forth below.
